100% JAPANESE QUALITY

Toshiba, is the most recognizable Japanese battery brand worldwide.

Toshiba battery division invests in Research & Development, in order to design innovative products, with top class materials used, sustaining superior quality and performance.

Famous no-leakage technology is applicable to all ranges and products, ensuring long lasting performance, endurance and quality.

JAPANESE HIGH QUALITY

Designed & developed with high standards, ensuring excellent reliability & performance

TOP CLASS BRAND

Highly recognizable brand worldwide, synonymous to quality

NO.1 BATTERY DISTRIBUTOR

Being the No.1 Toshiba Batteries distributor, we know the market in every country we operate

100% CUSTOMER APPROACH

We provide constant support to our partners ensuring the brand, as a top choice

COMPARISON DATA: LIFE TIME

Comparison Data: Life Time. The above index shows superiority in the life time of GCP and GCH when GR assumed 100%

ALPHA POWER

Advanced technology for all digital needs

Alpha Power is the most powerful Toshiba battery, designed and developed to accommodate today's digital needs. It offers the Powerful Japanese Energy to all digital devices that demand full energy consumption.

Alpha Power offers high quality, long lifetime and superior performance vs. High Power, the basic alkaline line.

All Toshiba batteries are fully charged and ready to use. They contain no mercury, cadmium and lead, providing a trustful source of energy.

Benefits

- ✓ High quality and long lifetime
- ✓ Safe, powerful and reliable
- ✓ Excellent resistance to leakage
- ✓ Superb low temperature characteristics
- ✓ Best suited for high drain use

SUITABLE FOR ALL DIGITAL DEVICES

COMPARISON DATA: LIFE TIME

GCH Alpha Power is compared to GCP High Power. The graph shows superiority in the life time of Alpha Power vs High Power, the basic Toshiba alkaline line.

HIGH POWER

The reliable, high quality, powerful battery

Toshiba alkaline High Power batteries are among the market's top choice, designed for high performance and longer life.

They have unique features, such as a higher capacity / weight ratio. Toshiba batteries are compatible with all devices and perform very well in high demanding digital devices.

All Toshiba batteries are fully charged and ready to use. They contain no mercury, cadmium and lead, providing a trustful source of energy.

Benefits

- ✓ High quality and long lifetime
- ✓ Safe, powerful and reliable
- ✓ Excellent resistance to leakage
- ✓ Superb low temperature characteristics
- ✓ Best suited for medium to high drain use

ALKALINE

Reliable, powerful & affordable

Toshiba Alkaline is designed to serve all basic power supply needs, that a reliable battery can offer at an affordable price range.

The 3rd Alkaline Toshiba battery series is developed to be compatible with all devices, maintaining brand's excellent performance in basic devices.

All Toshiba batteries are fully charged and ready to use. They contain no mercury, cadmium and lead, providing a trustful source of energy.

Benefits

- ✓ High quality and long lifetime
- ✓ Safe, powerful and reliable
- ✓ Excellent resistance to leakage
- ✓ Superb low temperature characteristics
- ✓ Best suited for low drain use
- ✓ Economy price range

Specially designed and developed to meet specific market needs. It incorporates Toshiba's latest zinc technology, established worldwide for non-leaking, stable performance for low-drain devices. Complete line up with AA, AAA, C, D, 9V in shrink only packaging.

NO LEAKAGES

JAPANESE QUALITY

RELIABLE

Benefits

- ✓ Optimum performance for general use
- ✓ No leakage
- ✓ No mercury nor cadmium
- ✓ Stable discharge characteristics

BEST SUITED FOR ALL DEVICES;
OPTIMAL USAGE FOR REMOTE CONTROLS, CLOCKS, TOYS, TORCHES, RADIOS

RECHARGEABLE BATTERIES

RECHARGEABLE (Ni-Mh)

AA
TNH-6GAE

AAA
TNH-03GAE

AA
TNH-6GME

AA
TNH-6GLE

TOSHIBA Rechargeable batteries (Ni-Mh) offer strong, long-lasting performance and convenience. They are an excellent choice for mid to high range capacity devices, like cameras, cordless phones, shaving machines.

Depending on usage and application, the cycle can reach up to 1.500 loads / discharges. They are pre-charged and ready to use, with low self-discharge rate.

Benefits

- ✓ Low costs with rechargeable usage
- ✓ High energy density
- ✓ Best suited for high drain use

BEST SUITED FOR CONTINUOUS RECHARGE

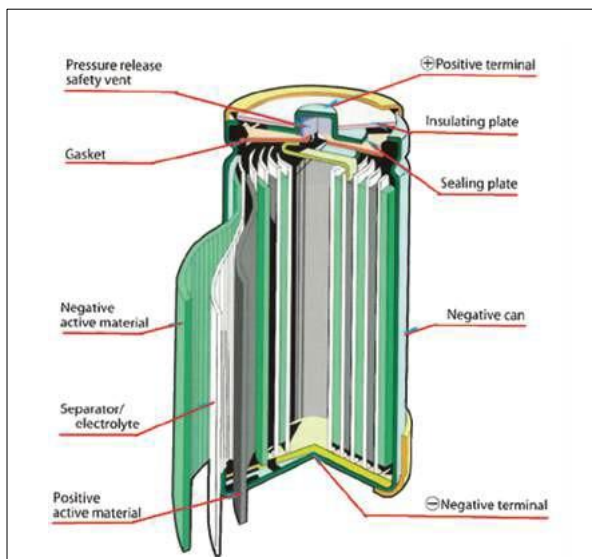

TECHNICAL CHARACTERISTICS

NOMINAL VOLTAGE: 1.2V	POSITIVE ACTIVE MATERIAL: Nickel Oxyhydroxide Ni(O)(OH)
ELECTROLYTE: Potassium Hydroxide (KOH)	NEGATIVE ACTIVE MATERIAL: Hydrogen Absorbing Alloy (MH)
