DESIGN FOR EVERYONE

BRAND WITH SOUL

Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design.

Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

TURN OFF THE LIGHT

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.

Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

24V Power Supply

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

24V Power Supply

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

Conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.
